Understanding the Community Service Section on the Application

Each applicant must submit all volunteer activities that were completed this calendar year. Depending on your age, these activities will vary in scope and impact. Please list your most recent activities first. You must have at least one current year community service activity listed.

In the application, please include the following information about your primary community service activities:

- The organization you worked with/what the activity was

- From/to what dates you have done this service

- Your estimated total number of hours served **for this calendar year**

  - **Your dates of service and number of hours served should reflect your total current year community service, not cumulative. Please do not include hours from prior year community service in your estimate. You can let us know which activities you've been involved with for more than one year by checking the box provided.**

In the activity details box, please provide the following information:

- Impact on the community

- Specific accomplishments or events

- Your specific role related to the activity

To add additional activities, include text in all text boxes for activity 1 then select the box indicating that you have more activities to add. If you don't have additional activities to add, do not select the option to add more.
